

Maintenance Work Life or Death Experience ?

**100 ACCIDENTS IN A TWO YEAR
PERIOD**

**5 MINERS WERE KILLED AND 95 INJURIES
WERE REPORTED WHILE PERFORMING
MAINTENANCE WORK**

BEST PRACTICES

- **Assure all miners receive their required training.**
- **Emphasize safe procedures and hazard recognition. Use the “Take two” approach. Take two minutes to assess and determine the hazards.**
- **Assure that the training was effective by observing work practices.**
- **Supervise and mentor employees closely.**
